# Inactive Status

Students who have previously applied to graduate can be moved into inactive status. Generally this happens for one of three reasons:

1. Student applied but did not graduate or submit a Graduation Date Change
2. Requested through a Graduation Date Change, graduation date unknown
3. More than two Graduation Date Changes have been submitted – Graduations policy is to not process more than two Date Changes, a final date change can be submitted once all degree requirements are met.

Inactive status essentially places the graduation application on hold and allows the student to enroll in future terms. When the expected grad date is known a Graduation Date Change needs to be submitted to reactivate the original application.
