GER and UCORE Crosswalk Summary

For FORMER STUDENTS RETURNING (FSRs) ONLY

The implementation of Rule 110 for Former Students Returning begins with students admitted for Spring 2015. These students will be held to UCORE requirements, regardless of their initial post-secondary education date (IPED date).

As many of these former students may have already made significant progress towards completing the 2009 GERs, a “crosswalk” was put into place that will allow for courses taken prior to Fall 2012 with a GER attribute to be utilized for UCORE and additional college requirements.

Crosswalk for courses taken prior to Fall 2012
B=BSCI   W=WRTG
C=COMM    P=PSCI
D=DIVR    S=SSCI
G=HUM     T=CAPS
I=DIVR    GEN ED 110 = HUM
K=SSCI    GEN ED 111 = ROOT
N=QUAN

Additional Information

Anything not specified below requires University petition.

- [H] courses were not included in the crosswalk because they can represent either [HUM] or [ARTS]. Upon request from advisor, the Graduations area will apply [H] courses with a MUSIC, ARTS, or FINE ARTS prefix to the [ARTS] requirement and will apply courses with all other prefixes to the [HUM] requirement. PHIL 201 can be applied to either [QUAN] or [HUM]. If [HUM] requirements are satisfied, courses with a [G] attribute can be used to fulfill the [DIVR] requirement upon advisor request to the Graduations area.
- If [SSCI] requirements are satisfied, courses with a [K] attribute can be used to fulfill the [DIVR] requirement upon advisor request to Graduations area.
- If a student took a course that subsequently acquired a [D] attribute, that course can be directed by graduations to fulfill the GER [D].
- Requests to have [Q] [U] and [Z] courses applied to UCORE requirements should be directed to Office of Undergraduate Education.
• In some cases, courses taken by former students returning (FSRs) Fall 2012 through Summer 2014 that did not have a UCORE attribute and subsequently received one may be applied to UCORE requirements. If the UCORE attribute effective date is prior to January 1, 2015, or within 2 semesters of when the course was taken, the advisor may request an exception from the Graduations area.

• GER courses taken Fall 2012 or later by students who were admitted or readmitted under GERs can be used to fulfill UCORE requirements via the crosswalk.

• Former students (FSRs) who returned Fall 2014, completed enrollment for Fall 2014, and who were originally admitted under GERs will graduate under the 2009 GERs as long as they do not step out for more than one year and do not need to be re-admitted after Fall 2014.

• If the 2009 GERs except Tier III are completed at the time of readmission, UCORE except CAPS will be considered completed. If Tier III is also complete, then UCORE will be considered complete.

• Students who apply to graduate and who do not need to re-enroll must complete their degree by Summer 2016 to remain under the 2009 GERs.

• Former students (FSRs) who are admitted under UCORE and had their transfer courses evaluated under UCORE will not be given GER credit retroactively.

• Requests to apply courses taken Fall 2012 or later that had a GER attribute to UCORE requirements should be directed to the University Petition Committee.

• All other requests, including changing a student from UCORE to GERs, should be directed to the University Petition Committee.
